If you are a mental health consumer with an Axis 1 diagnosis, you may be eligible for transportation to a variety of services. You must have a current diagnosis, be in treatment, and have a case manager and a written individual transportation service plan. This service is intended to provide interim transportation until the consumer is able to access other community supports such as friends and family. Assistance will be in the most cost effective manner available to you, and that meets your individual needs. This may be in the form of gasoline certificates, monthly bus pass, a voucher for a taxi or you may be scheduled with The Lynx agency vehicle or volunteer (this is always the last resort as we look for the most cost-effective means of service). As stated on the ISP form, transportation services are for 90 days only. After the 90 days have ended and you submit a new ISP, it is considered on a case by case basis for another 90 days. At the end of the second 90-day period, transportation services will end for this fiscal year. When calling, ask to speak to someone in TAP. The phone is staffed Monday through Friday 8:00 a.m. to 4:30 p.m. At other times, you may leave a message. All calls are responded to within 24 hours.

Directions for filling out an Individual Support Plan (ISP) for Transportation Services:

The ISP form needs to be completely and correctly filled out in order for TAP to provide transportation services. A letter of diagnosis from the diagnosing doctor is also required. The letter must state the Axis I diagnosis and the LOCUS score.

Note: A consumer that goes to work must pay a fee of 10% of each one-way trip cost. Residential group homes are responsible for providing transportation for consumers residing there.

What I want to work on (goals/needs): In this section you should list the transportation needed. This should be listed in the order of importance of need for each consumer. Example: work 5 days/wk, groceries 2 days/mo, recreation 2 days/mo from what address to what address.

How I will accomplish my goal(s) (action steps, strategies, objectives): In this section the consumer should list alternative steps they have tried and will try to make for alternative transportation within the 90-day transition time enabling you to move from the TAP program to self sufficiency.

What do I need (community resources/svcs.): The need is transportation services. If the consumer lives and has appointments on the bus route, a bus pass would be their transportation. If the consumer has a friend/family member that can transport them, they need reimbursement. If the consumer has no means of transportation and doesn’t fall into one of the above, we provide vouchers to the consumer for a taxi or can provide transportation with THE LYNX.

Strengths and barriers (personal and resource): In this section the consumer should state strengths and barriers pertaining to transportation services such as: what types of transportation the consumer can and cannot use.
This must be accompanied by the Individual Support Plan (ISP) form.

Section III
I understand this ISP is to help with transportation for up to 90 days and it is my goal to
find other transportation within this time by using the public bus or some other means of
transportation. After 90 days each consumer is considered on a case by case need. I
understand I may not get transportation to all the needs I have listed on my ISP so that
critical needs by all TAP consumers can be met. If this ISP is not completely and
correctly filled out, we will send the ISP back to be correctly filled out. I have also
included a letter of diagnosis and LOCUS score from the diagnosing doctor. By
signing this form, I authorize release of information to my caseworker.
